

Water TechniX Eclipse Cartridge Filter

The Water TechniX Eclipse Cartridge Pool Filter has unbeatable value when it comes to your pool filtration needs. Its ultra-compact and bulletproof design makes it one of the sleekest and easiest to install cartridge filters out there. Don't let its compact size fool you, the Eclipse's unique design brings with it maximum filtration at an unbeatable price, allowing you to save time, money, and pool chemicals.

Features:

- No need to backwash, simply hose down the element when required.
- The element is made from the highest quality filtration material to capture the smallest debris down to 8 micron.
- Impact resistant, anti-corrosive and UV resistant tank that is built to last.
- 3 inlets and 1 outlet for custom configuration with existing pool equipment.
- Extra large drain port for simple maintenance.
- Compatible with salt, chlorine and magnesium pools.
- Compact design for easy installation in space restricted areas Ergonomic, easy to grip handles on the tank lid.
- Screw type air bleed valve for easy start up.
- Robust base for extra stability.
- Accurate stainless steel oil filled pressure gauge.
- Self sealing barrel unions with silicone o rings for an airtight seal.
- Compatible with standard, eco and variable speed pumps.
- Factory pressure tested to ensure reliability.
- Max working pressure 250Kpa.
- Available in 3 different sizes, CF75, CF100, CF150.

The Eclipse's compact design coupled with the high capacity filtration area ensures unmatched water clarity and longer filter cycles!

The Eclipse filter is designed with a reinforced tank, making it virtually indestructible. Its heavy duty lid and easy to open lock ring ensures maintenance is a breeze all year round. The Water TechniX Eclipse Filter also comes with a bulletproof 2 year warranty on the tank, yes, 24 months!

It also comes with a 1-year warranty on the element and other components. When it's time, we also stock the Eclipse replacement filter cartridge elements for easy re-ordering

The Eclipse is DIY-friendly and will retrofit into existing plumbing with minimal changes. It also includes 40mm and 50mm barrel unions that can suit any pool, whether in-ground or above ground with capacities of 20,000L - 90,000L depending on the model of Eclipse Filter.
