

Water TechniX Hawk Suction Cleaner

The Water TechniX Hawk is a powerful, well-built automatic pool cleaner that can take on just about any pool size and shape without breaking a sweat. Manufactured with the best-in-class materials to bring superior cleaning performance with optimum cleaning coverage

Features:

- User friendly. Quick, easy installation without tools in minutes.
- Built in float for nimble agility.
- Full pool coverage, cleans floors, walls and waterline (will try the steps!).
- Robust hydraulic design with swivel hose connection to avoid tangles.
- Compatible with salt, chlorine and magnesium pools.
- Creates a powerful vacuum that sucks up all debris in its path.
- The hammer being the only moving part means no wheels or gears to jam or diaphragms to replace.
- 30cm finned skirt for a super wide cleaning path for speedy efficiency.
- Consumes no additional energy working when your pump is operational.
- No bags or canisters to empty, all debris goes to your skimmer basket.
- All parts are UV stable and chemical resistant for years of dependable service.
- High flow leaf scoop best suited for small and medium debris.
- The bumper enables smooth navigation around corners, steps and ladders.
- Male 36mm hose connection for automatic hoses (not included).
- Performs flawlessly with above ground and in ground pools, Rectangle, Oval or Free form.
- Suits Concrete, Pebblecrete, Quartzon, Tile, Fiberglass and Vinyl surfaces.

The Hawk pool cleaner is the perfect addition to keep your pool spotless, year after year. It can be installed in minutes around the pool without any tools, leaving you with a completely clean pool every time.

The Hawk doesn't include a hose but attaches to an existing pool hoses so you don't have to spend on new ones. This lightweight cleaner is packed with features usually found in other cleaners twice its price, the Hawk is truly in a class of its own.

The Hawk cleaner can vacuum up debris, bugs, leaves, sand and silt in a breeze! A standard 1 horsepower pump is all the Hawk needs to crawl around the pool and pull in large debris. The Hawk will move backwards in direction, with the water flowing through the base of the cleaner and alternately diverted between the two drive tubes. The kinetic energy generated by the water being trapped in each drive tube provides the lifting and propelling motion of the cleaner. It scrubs the walls and floor thoroughly with its bumper fin and anti-stick skirt, leaving you with a spotless pool every time.

The Hawk Cleaner also comes with a bulletproof 1 year warranty and a spare hammer for peace of mind.
